

BALSAMIC TC

Chronic respiratory disorder

Properties

Balsamic TC contains 5 natural plant principals selected for their expectorant, antispasmodic, antiallergic and soothing properties. Its formula is highly concentrated in order to meet the specific needs of equine species.

Uses

Nutritional supplement particularly used in horses showing signs of:

- Recurrent respiratory disorder of non-viral origin.
- Breathing difficulties, particularly at the start of exercise.
- Sensitivity to dust and moulds present in the environment and hay.
