

EKYRENAL

Stimulates hepato-renal function

Dietary supplement for horses intended to support kidney and liver function during chronic failure.

- **Toxin elimination.**
- **Hepatic drainage.**

EKYRENAL's formulation promotes toxin elimination, while efficiently stimulating the horse's kidney and liver function.

Herbal extracts used have been selected for the following properties:

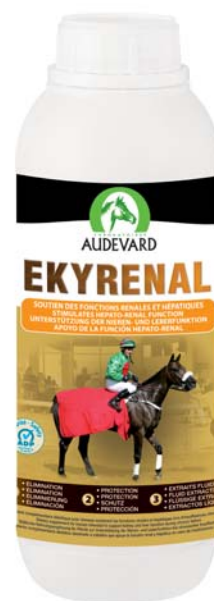

- Diuretic: Increases the volume of urine secreted.
- Hypoazotemic: Eases nitrogen elimination.
- Choleric: Eases bile secretion.
- Hepatoprotective.

Herbs are incorporated into the EKYRENAL in highly concentrated liquid extract form to meet the requirements of the equine species.

The formulation contains Choline and Methionine for optimized liver protective action.

Uses

- Horses making intense efforts, or receiving rich food rations.
- Elderly or convalescent horses.
- Horses with recovery difficulties.
- Liver or kidney failure.

Composition for 1L

Round-Head Bush Clover (Lespedeza capitata)	3 ml	Birch leaves (Betula alba)	3 ml
Boldo (Peumus boldus)	36 ml	Choline ChL	12 g
Chrysanthellum (C. indicum)	3 ml	DL-Methionine	10 g
Java tea (Orthosiphon stamineus)	24 ml	Apricot excipient QS	

Instructions for use

Intensive: orally administer 25 ml EKYRENAL twice daily using the measuring cap.

Daily use: 10 to 25 ml per day.

Shake the bottle thoroughly before use.
